Quick and Easy Assembly

STUDIO Portable Video Backdrop GUIDE SHEET

Thank you for your purchase! This guide sheet explains how to easily, quickly and safely set-up, use, adjust, collapse and store the CVI STUDIO backdrop.

Components

- Tripod Stand
- Connector
- Fabric Panel
- Optional Parts

1

- Lower center hub and extend three Tripod legs
- Tighten knob on bottom hub

SET-UP

2

- Rotate *Fabric Panel* to the horizontal position
- Raise *Stand* upright to 60°
- Tighten clutch knob
- Stand behind *Tripod*

3

- Release two Velcro straps
- Allow *Fabric Panel* to unfurl itself downwards
- If the *Panel* is uneven or buckled, twist top rod forward.

OPERATION

- Make sure the backdrop unit is stable and standing away from any possible disturbances
- The video camera re-adjusts to illuminate your face, hands and arms better
- You may easily turn, move and re-orient the backdrop to meet the needs

Options

- additional panels of different colors
- multiple panels on a single rod
- 24" extension rod; up to 7'
- custom, nylon carry case

TAKE-DOWN

- Stand facing the front of the backdrop and grasp the bottom rod with both hands
- Roll up (forward) the panel slowly, evenly and tightly until the two rods meet at the top
- Wrap the Velcro straps around the two rods and attach the straps securely, but not too tightly
- Rotate the *Fabric Panel* to the vertical position along the stand and lower the upright
- Fold up the three legs and slide the hub to the center
