

Introducing

“True-to-Life”

Video Remote Interpreting 2.0™

- Interpreters **view front of room** with a second on-site camera
- Immediate access to speakers’ non-verbal cues & visual aids allows interpreters to **better understand & deliver the message smoother**
- Presenters and consumers experience **less disruptions**

Seeking pilot testers:

- deaf & deafblind consumers
- hearing & deaf interpreters
- hearing consumers
- interpreting agencies

For pilot testing, questions, demos, consulting and assignments, please contact:
