

CVI Voice Control App Guide

This guide presumes users already have skills in **Voice Control**. In Settings scroll down: Accessibility, then scroll to **Voice Control** and set the parameters below.

New York Times *Mini* Crossword

Video Demonstration of Voice Control Solving "Mini" Crossword Puzzle

PLAY:

TIPS: To ensure optimum voice clarity, eliminate all device & background noises
Respect the noise space of others nearby when stating voice commands.

1) Selection of Active Square

- select the square you want active & speak a grid number [faint] inside the square
- clues for *active squares* appear between the crossword grid and keyboard
- active squares* turn yellow and all of the squares in its column/row, turn blue
- to get the other-direction clues of *active squares*, re-speak the same grid numbers

2) Placement of Letters

- to place letters in the selected yellow squares, refer to the keyboard numbers
- speak the numbers, and the yellow square advances to the next spaces
- if there are any mistakes, re-select the square and re-speak the correct number

3) Management Tabs (Dismiss, Clue List View, Pencil, etc.)

- speak the desired numbers for the corresponding tabs at the top of the screen
- after selecting 5 and viewing clue list, select 5 again to return to crossword
